

## **On the field of Osiris. A Hungarian Museum-pedagogical Project**

Hedvig Győry

"Ozirisz földjén" (On the field of Osiris) is a museum-pedagogical program I launched two years ago with the aim to find a new way to contact Hungarian children of age 10-14 with the Egyptian Collection of

the Museum of Fine Arts, Budapest, and to give them a better understanding of ancient Egypt and the pieces in the collection, but also to increase their creativity, skills and sense for art. It is an on-line competition ([www.szepmuveszeti.hu](http://www.szepmuveszeti.hu)

<<http://www.szepmuveszeti.hu>>

-> múzeumpedagógia -> vetélkedők ... -> Ozirisz földjén) with units to

accomplish for getting into the final, when the best groups compete personally in the Museum.
