

Dear colleagues,

As part of the 2011 budget, ICOM will continue to support its network by organising various programmes comprising major activities :

Among those we are directly concerned by

1. the support to International Committees in organising special projects and
2. the bursary programmes to foster the attendance of young members at the annual meetings of ICOM's International Committees.

Given the financial impact on ICOM's budget, all supported actions are elected through a selection process based on files presented by the Committees and are subject to a follow-up process.

If you like to submit a file regarding those two points and to know more about « Special Projects » and « Bursary Program for Young Professionals », you are invited to go at

<http://icom.museum/where-we-work/icom-network/support-to-the-network.html>

Please read it carefully. An electronic request form is available.

We remind you that the link between the proposed project and directions provided by the 2008-2010 Strategic Plan must be clear and the role of the Committee involved must be explained. The expected results in relation with the Strategic Plan must be explained.

I will ask you to send your proposals at least for the 20th of January 2011 at the following address : [chair@cipeg.icom.museum](mailto:chair@cipeg.icom.museum). A team will examine the proposals sent to the Committee before submitting one of them to ICOM. The deadline to submit the projects to ICOM is the 15th of February.

Looking forward

Claire Derriks

Chair of CIPEG
